

Trailed Diet Mixers

Vertical auger mixers
with 1, 2 or 3 augers

High-tech production diet mixers

Kongskilde is one of Europe's leading specialists in the manufacture of complete diet mixers

The range of Trailed diet mixers is specially developed for the challenges that future milk producers are facing.

The machines are designed and developed in Denmark and tested on farms right across Europe and produced in our modern production facilities.

Through the whole manufacturing process large tools are used to fix the parts during welding in order to ensure consistency and high quality. The choice of high-strength steel results in a feeder which is exceptionally hard-wearing. This ensures highest quality and makes the Kongskilde Feeders the best diet mixers on the market.

The range of diet feeders consists of 21 „basic families“. The complete Feeder VM range can be seen in the table below.

Trailed diet mixers with 1 auger Cross conveyor

Trailed diet mixers with 2 augers Cross conveyor

The diet mixers VM range

| Volume | Number of dairy cows per load (8000 kg ECM/cow/year) | 1 auger | | | | | 2 augers | | | | | |
|----------|---|------------|---------|-----------|-------------|-------------|-----------|------------|--------------|--------------|---------|-----------|
| | | VM-1 S | VM-1 | VM-1 B | VM-1 B X | VM-1 B M | VM-2 S | VM-2 SB | VM-2 SB X | VM-2 SB M | VM-2 | VM-2 B |
| 6,5 m³ | 35-45 | VM 6.5-1 S | | | | | | | | | VM 20-2 | VM 20-2 B |
| 8 m³ | 45-55 | VM-8-1 S | | | | | | | | | VM 22-2 | VM 22-2 B |
| 10 m³ | 55-70 | VM 10-1 S | VM 10-1 | VM 10-1 B | VM 10-1 B X | VM 10-1 B M | | | | | | |
| 12 m³ | 67-85 | | VM 12-1 | VM 12-1 B | VM 12-1 B X | VM 12-1 B M | VM 12-2 S | | | | VM 27-2 | VM 27-2 B |
| 14 m³ | 80-100 | | VM 14-1 | VM 14-1 B | VM 14-1 B X | VM 14-1 B M | VM 14-2 S | VM 14-2 SB | VM 14-2 SB X | VM 14-2 SB M | | |
| 16 m³ | 93-120 | | | | | | VM 16-2 S | VM 16-2 SB | VM 16-2 SB X | VM 16-2 SB M | VM 30-2 | VM 30-2 B |
| 18 m³ | 105-135 | | | | | | VM 18-2 S | VM 18-2 SB | VM 18-2 SB X | VM 18-2 SB M | | |
| 20/21 m³ | 115-150 | | | | | | VM 20-2 S | VM 20-2 SB | VM 20-2 SB X | VM 20-2 SB M | | |

S: Compact / narrow

B: Cross conveyor

M: Multi (Cross conveyor combined with straw bedding equipment)

X: The X-range - the flexiBle 4-in-one cross conveyor belt solution (flat – side shift – elevator right and left)

Trailed diet mixers with 3 augers

Discharge doors

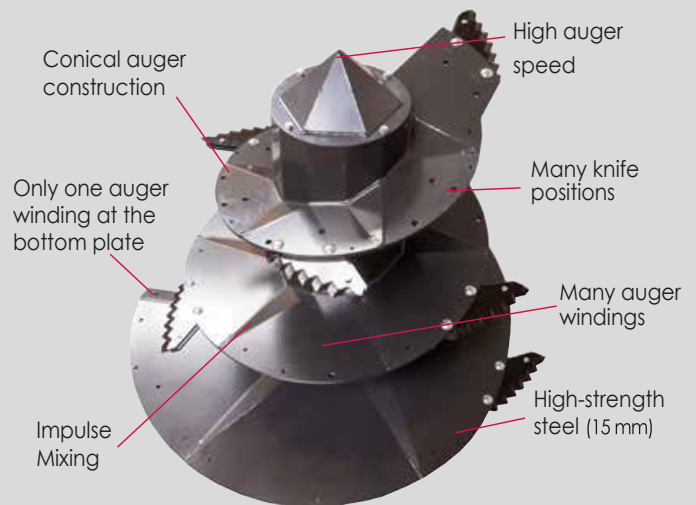

Unique mixing auger

Short knives
are standard.

Long knives
with tungsten
are available
for shredding of
large amounts of
straw
(option).
