Horizontal Feed Mixers

Green& Compost

KONGSKILDE.COM

MANAGEMENT

People, vision, direction.

PRODUCTION

Built with skill. Made to perform.

Every machine is the result of skilled craftsmanship, advanced manufacturing processes and careful assembly. From individual components to the finished product, every step is focused on performance, durability and reliability.

QUALITY

Precision in every detail.

Quality is built into every detail. From material selection and component inspection to final assembly, we focus on precision, consistency and long-term reliability.

TRAILED VERSION

Samurai 7 Green & Compost

Towed version for tractor coupling

The Samurai 7 Green & Compost Bio-Chopper Mixer is designed for efficient mixing, chopping, and processing of green waste, compost materials, and biomass.

CHOPPING EFFICIENCY
BUILT FOR DURABILITY
VERSATILITY AND EASE OF USE

Turning green waste into golden efficiency

7 to 33 m³ | hardox tank bottom | Horizontal

SCV Series

Self propelled version with diesel engine

The SCV Series self-propelled turners are designed to ensure efficient, energetic and uniform turning of biomass windrows.

POWER THAT PERFORMS
PERFECT COMPOST EVERY TIME
COMFORT IN CONTROL

From great power comes big compost.

Working width: 3,3m - 5,5m | Power 55-280 kw | Hourly production m3/h 250-2500

Separator MD/ME

Towed version with diesel engine or stationary version with electric motor

The SEKO Separator Series represents the latest generation of drum screening technology, designed to deliver maximum performance, durability, and efficiency in composting and recycling applications.

HIGH SCREENING PERFORMANCE
EASY MAINTENANCE
ECO-FRIENDLY AND RELIABLE

The rhythm of recycling

Work performance in m3/h 50-100 | Motor power 36-55 kw for MD version 30-55 kw for ME version | Diesel engine

Pony 3W Self

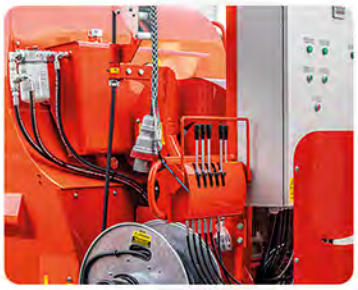

Self propelled version 3-wheels with electric motor with standing driving station

The Pony 3W ME is a self-propelled electric mixing wagon designed for efficient, eco-friendly feeding operations.

ECO-FRIENDLY EFFICIENCY
CONSISTENT MIXING QUALITY
SMART AND EASY CONTROL

Running wild feeding

7 to 17 m³ | Electric motor | 29,5-37,5 kW

Leopard 4W Self

Self propelled version 4-wheels with diesel engine with cabin or driving station

The Leopard 4W is a self-propelled unifeed mixing wagon equipped with a diesel engine and four-wheel configuration.

POWER AND EFFICIENCY
OPERATOR COMFORT
SMART TECHNOLOGY

Strength in motion. Comfort in control.

13 to 17 m³ | Diesel engine | Comfort cabin

Samurai 7

Towed version for tractor coupling

The Samurai 7 horizontal shredder-mixers feature the exclusive Double Mix system with two **horizontal** augers for fast, precise mixing and low power consumption.

QUICK AND PRECISE PROCESSING
PATENTED CHOPPING-MIXING SYSTEM
PRESERVED PRODUCT QUALITY

Efficiency that turns every load into a perfect mix

5-33 m³ | Diet mixer | Patented Mixing System

Samurai 7 Tiller

Towed version for tractor coupling with silage tiller

The SAMURAI Series horizontal shredder-mixers, featuring the exclusive "Double Mix" shredding and mixing system and equipped with tiller.

OUTSTANDING EFFICIENCY
PATENTED CHOPPING-MIXING SYSTEM
RELIABILITY & SAFETY

Efficiency redefined in every rotation

7-23 m³ | Diet mixer | Patented Mixing System

Samurai 7 Shovel

Towed version for tractor coupling with loading shovel

The SAMURAI Series horizontal shredder-mixers, featuring the exclusive "Double Mix" shredding and mixing system and equipped with loading shovel.

OUTSTANDING EFFICIENCY
PATENTED CHOPPING-MIXING SYSTEM
PRESERVED PRODUCT QUALITY

Rear shovel for easy loading

7 - 25 m³ | Diet mixer | With loading shovel

Samurai 7 ME

Stationary version with electric motor

The Samurai 7 ME is a stationary unifeed mixing wagon powered by an electric motor.

ENERGY-EFFICIENT AND ECO-FRIENDLY
CONSISTENT AND HIGH-QUALITY MIXING
LOW MAINTENANCE, HIGH RELIABILITY

Quiet strength. Clean energy. Complete control.

5 to 33 m³ | Horizontal | Electric motor

Samurai 7 ME Rail

Self propelled version for rail drive with electric motor with standing driving station

The Samurai 7 ME RAIL is a rail-mounted electric unifeed mixing wagon.

ELECTRIC EFFICIENCY
PRECISE FEED MIXING
SMOOTH RAIL-MOUNTED OPERATION

Glide, grind, and go electric

11-23 m³ | Horizontal | Electric motor

Samurai 7 Wet Feed

Towed version for tractor coupling with chopping/mixing wet and heavy feeds

The SAMURAI 7 WET FEED is specifically designed for diets with a high humidity percentage, without affecting the high-quality cutting thanks to its dedicated cutting system. A watertight door is also available as an optional feature.

PERFECT FOR MOIST MIXTURES
SMART CONTROL
DURABLE & SAFE

Powerful mixing for perfect moisture balance

13-25 m³ | Diet mixer | For unifeed with high humidity

Samurai 7 3W Self

Self propelled version 3-wheels with diesel engine with standing driving station

The Samurai 7 is a self-propelled unifeed mixing wagon with three-wheel drive and diesel engine.

POWER AND AGILITY
CONSISTENT MIXING QUALITY
EASE OF USE AND COMFORT

Maximum performance in minimum space.

7 to 11 m³ | Diet mixer | Diesel engine

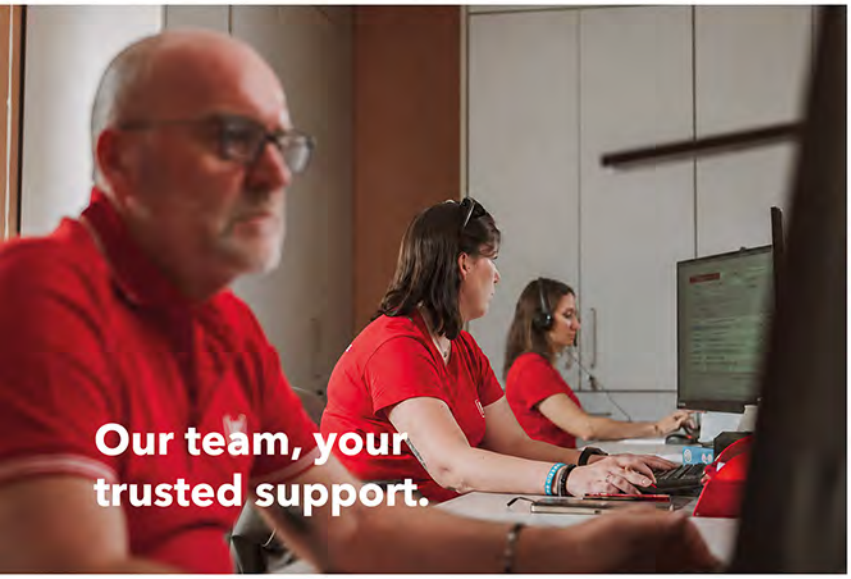

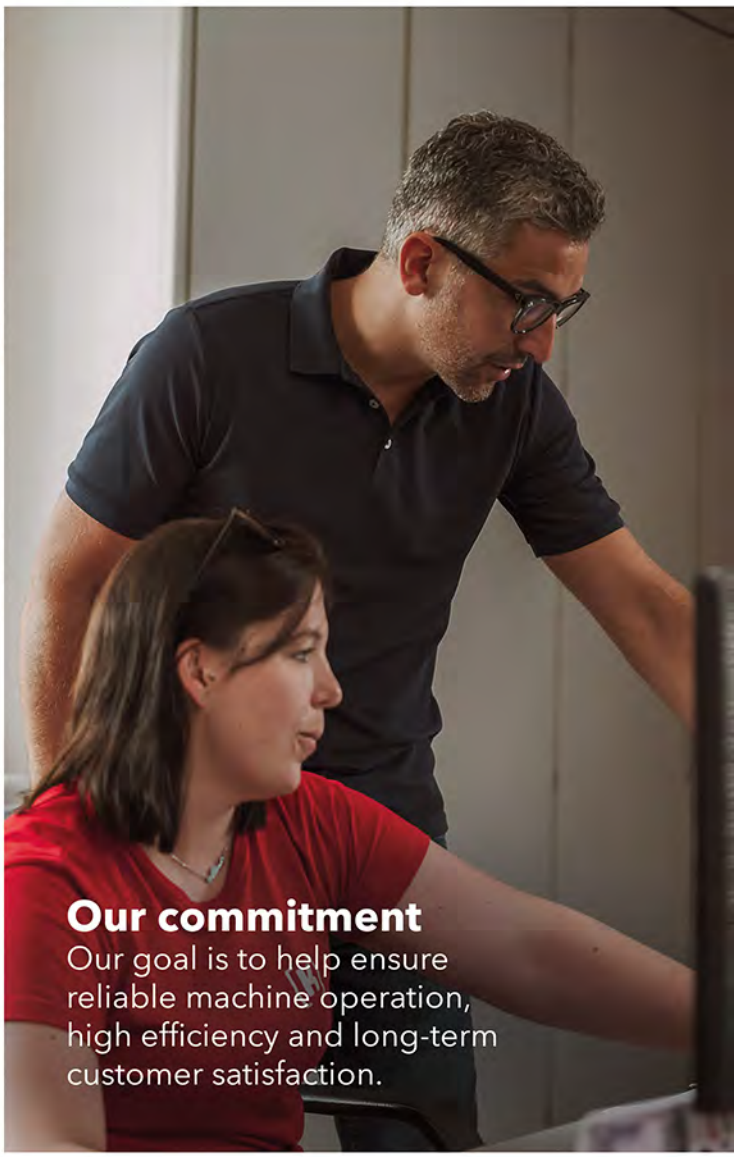

AFTER-SALES SERVICE & SUPPORT

We support our customers throughout
the entire life cycle of their machines.

CUSTOMER SUPPORT

Our dealer network supports you through
a dedicated Parts & Service Portal.
